# ECCU FUEL PRICES

## NOTES TO CHARTS

### Please note the following caveats to the ECCU fuel data:

 **Anguilla** - The retail price for regular 87 octane gasoline and the retail price for ultra-low sulphur diesel are utilised.

 **Antigua and Barbuda** - The retail price for US Waterborne unleaded 87 gasoline and the retail price for ultra-low sulphur diesel are utilised.

 **Commonwealth of Dominica** - The retail price for unleaded gasoline and the retail price for high-sulphur diesel are utilised.

 **Grenada** - The retail price for regular gasoline is utilised; information on the type of diesel sold is not available.

 **Montserrat** - The retail price for regular gasoline and the retail price for diesel are utilised.

 **Saint Christopher (St Kitts) and Nevis** - The retail price for unleaded gasoline and the retail price for diesel are utilised. There are two (2) data sources for diesel – Delta Petroleum St Kitts Ltd and Sol St Kitts & Nevis Ltd. Delta Petroleum St Kitts Ltd provides prices on ultra-low sulphur diesel from which an average is calculated. Sol St Kitts & Nevis Ltd. provides the price of ultra-low sulphur diesel as at the end of the month.

 **Saint Lucia** - The retail price for regular unleaded gasoline and the retail price for low-sulphur diesel are utilised.

 **Saint Vincent and the Grenadines** - The retail price for gasoline and the average retail price for high- and low-sulphur diesel are utilised.

**General:** When there is more than one price change provided for a specific month, the average of the said prices is utilised.
